

Check Assets IN / OUT

ScanAsset Check In/Out allows the **Asset Management System** to track the custody of an asset

1. Check out one or multiple assets
2. Check in one or multiple assets
3. Transfer custody of an asset to a different person and modify the "due date"

**** Email Past Due Notices ****

With ScanAsset's ease-of-use, you can check in / out assets from the desktop. The functionality of ScanAsset allows you to keep concise records of who has custody of your assets and how long they have had them.

ScanAsset keeps up with the movement of assets!!
